Books, Bookish People and Things

We get no good by being ungenerous even to a book.
E. B. Browning.

"The Unspeakable Scot," by T. W. H. Crostand, Clo. 5 1/2 x 7 1/2 in.; 215 p.p.; G. P. Putnam's Sons, New York; \$1.50.

The appearance of "The Egregious English" as a countercheck to this book of Mr. Crostand's, make a notice of the latter, at least, timely. And, I imagine, few Scotchmen (who are a reading and intellectual class) have failed to read the book so well done up in full Scotch plaid, while many (whose parents by leaving auld Scotia before their children could lay claim to its bonnie banks and braes sold their birthright for them) resent these reflections.

But, I think, any careful reader with a sense of humor, will not fall into the error of taking the book seriously or literally. If not metaphorical, it is ironical in what it means, and means not at all what it says. Indeed, I am of the opinion that the reader who gets nearest to the author's motif in writing this book will discover in it a wholly good-natured, half-bantering attempt to let people know how much the world need use Scotch. While the author seems to strike in one direction with murder in his eye, he wields a two-edged sword.

It would not be surprising, indeed, to discover finally that the author, like a great many other clever Englishmen, is a Scotchman himself. Now, in certain moods, a man may swear at the horse or dog he loves best, or tirade his old friend, irritated perhaps by some trait that showed itself at the wrong time, and The Bookman takes it that this book is just one of these strange outbursts of mock wrath.

Mr. Crostand confesses, "I have been trying all my life to like Scotchmen." Way, pray, if they be so unworthy? Then he goes on: "They cannot like me—and, in truth, I never knew one of that nation who attempted to do it." If this is intended for humor, it is very Don Quixotian; otherwise, very English, and probably proves nothing against the Scotchmen who have met Mr. Crostand.

With a glee for mere numbers, he gathers up the names of the great who did not like Scotchmen. He knows that this does not signify anything at all; that the dislike may be due to rivalry, personal prejudice, ignorance, or general narrow-mindedness. Some find that Germans, English, Americans and French are hated by individuals of other races just as cordially on just as unreasonable grounds. It is quite proper and human for a man to like his own race the best, but it is quite improper and wrong when judging of a man's character or abilities to let race preference be the judgment.

Very soon in the book one comes to the "Pow-wow Men," and read: "In France, in Germany, and even in beautiful Russia, Scotchmen have established themselves, and at time and time risen to positions of considerable power." These are certainly strong words of praise, no matter how intended. "In England, however, the more Scotch and the more aggressive the Scot becomes, the more we seem to like him." Only a few pages back, the Scot seemed to be an object of

dislike to the English! "At the present moment England is virtually being run by the Scotch. In the House of Commons, the leader of the Government—and practically the autocrat of the Assembly—is the Rt. Hon. Arthur James Balfour, a philosopher from Scotland. And the leader of the Opposition is Sir Henry Campbell-Bannerman, also a Scotchman. We have the Liberal League headed by that proud chieftain of the pudding race—the Rt. Hon. the Earl of Rosebery. So at the front of the three great political parties—the forces, which, when all is said, mean everything to Britain as a nation—there stands firm and erect some sort of a Caledonian."

If this be an admission—what more humiliating one to Englishmen? But it is only a sly way of "acknowledging the corn" (which we suspect it is) how delicious!

Every one who knows anything at all knows and acknowledges that the positions gained and held by these Scotchmen are responsible positions requiring great abilities, and that the only reason Balfour, Bannerman and Rosebery hold them is because these men have the abilities needed.

And in a lesser degree—but relatively as much so—is it with the newspaper men in London.

"The reporting staffs of both the London and provincial journals can, I think, boast a decidedly decent leaven of Scotchmen."

"In Fleet Street, if you do not happen to possess a little of the Doric, you are at some disadvantage in comprehending the persons with whom you are compelled to talk."

I am afraid that the average Englishman's talk would be less comprehensible than the Scotchman's if the two were to be compared by—say an American.

"Numerically, the Scotch journalist is unquestionably strong. He possesses, too, certain solid qualities which are undoubtedly desirable in a journalist." After this, it matters little how much language you cast at him in the way of calling names. If the Scotchman "fills the bill," and employers know it, what more is required? Newspaper owners do not do things for fun. They are as careful and unsentimental as other business men, and employ those who have the brains and training to do the work the way they want it done.

The chapters about "Thrumbs and Dromochty," "The Bard" and "The Scot as a Critic" are amusing. Of course, in many respects, Burns was vulnerable, who isn't? He was a true poet, too, for—

"A' that an' a' that,"

To review the lives of perhaps a majority of our greatest writers, English or American, would not add to our good opinion of their virtue. The lives of Bacon, Byron, even of "dear Will Shakespeare," Poe and others, must be studied with charity, and a due sense of proportion so far as temperament and the times affected them. And, after all, how shall we justly judge of a man except by his motives—his aspirations, his persistent, innate tendencies? The only bad man is the only really immoral man is the

one devoid of strivings towards a better life. Burns groveled often, but his face always caught the reflection of higher things.

I consider the reference to Barrie's "Margaret O'Gilly" a bit of coarseness. If the writing of this novel was in bad taste, Mr. Crostand's reference to it was in much worse taste, I am sure.

The Bookman has looked "The Unspeakable Scot" over in vain for any information in regard to W. E. Gladstone's ancestry, and he has smiled at the author's explanation of the three formidable Scotch accidents in literature—Scott, Carlyle and Stevenson!

The reference to Scotch "thrift," Scotch drinking habits and Scotch immorality is a possible arraignment, which, however, another set of figures will no doubt modify.

If, as Mr. Crostand says, the Irish are less immoral than the Scotch, then the Bookman would paraphrase Lincoln's remark about the kind of whiskey General Grant used during his campaign, and say, "Give us Scotch immorality."

The book ends with a little harmless banter which might as well be applied to U. S., as to the Scotch: "If you have bought this book, you never spent a few shillings to better advantage in your life. If you have borrowed it, as I expect most of you have, you are forgiven, providing you will really try to mend."

FLOOD INCREASING.

The Missouri, in reckless pace, is destroying hundreds and hundreds of homes, laying waste to and damaging property, and turning out into the cold world those who have worked for years to establish a home for themselves and their progeny. The river is still rising and even more disastrous floods are imminent.

In contrast to this horrible scene we in the "Paradise of the Pacific," are beholding a flood of quite a different type. A flood of happiness, inasmuch as the flood takes the form of quantities of Douglas Patent Closets, making homes happier and insuring against the annoyance of running water. Bath makes no attempt to stem the tide.
